

GUARANTEE

Durable quality throughout the entire lifespan of the micronAir® office
Fine Dust Filter – fully tested by German TÜV

The proven quality of the **micronAir® office Fine Dust Filters** is tailor-made to meet even the toughest demands found in printer operation today.

Provided that the **micronAir® office Fine Dust Filters** is used in accordance with manufacturer's recommendations, we hereby guarantee that compatible printers will not be damaged through any fault which is attributable to the filters – provided that the recommended lifespan of 12 months in printing operation or 70,000 printed pages is adhered to.

Within the manufacturer's recommended scope of use, i.e., given the appropriate office environment, the filter attached to the exterior of the appliance and filter changes as recommended by the manufacturer, no damage, premature wear and tear and/or deterioration of the appliances – e.g., printers or fax machines – is to be expected.

micronAir® office Fine Dust Filters hereby guarantee problem-free functional interaction between filter and appliance – and guarantee that printer performance will not be negatively affected through any fault which can be attributed to the filter during its recommended lifespan.
